### THE CONCEPT

The Indo-US Cytometry Workshops have been held since 2001 with the express purpose of interfacing Indian researchers with experts in cytometry from India and abroad.

This five day workshop will present lectures, panel discussions, tutorials and wet labs to review and demonstrate the various flow cytometric methods for stem cell analysis.

Applications are invited from students and researchers who wish to acquire expertise in the use of flow cytometry for stem cell analysis.

### Registration

Interested persons may send their bio-datas along with an application which can be downloaded at our website.
